

Evidence Based Medicine & Clinical Research

Virtual Interactive Workshops

University Hospitals of Derby and Burton NHS Foundation Trust

9th November 21: Start 09:30 – 16:00 (doors open at 9:20)

(doors open at 9:20, break at 11:00 and 14:30)

Outline

Introduction to asking clinical questions and understanding clinical research

The workshop will focus on

- Understand and apply the five principles of evidence-based medicine
- Undertake basic appraisal of three key study designs: RCTs, systematic review/meta-analysis, diagnostic test accuracy studies
- Start to explore setting up smaller research studies with and awareness of practical issues involved in developing these

Facilitator – Dr Bob Phillips

Bob Phillips is an Honorary Consultant in Paediatric / Teenage-Young Adult Oncology at Leeds Children's Hospital and Senior Clinical Academic at the Centre for Reviews and Dissemination at the University of York. Bob has worked extensively to promote and teach evidence-based practice with the Yorkshire Deanery, providing training to multidisciplinary groups and individuals. He has worked with the Centre for Evidence-based Medicine in Oxford, UK, and also the Centre for Evidence-based Child Health (Institute of Child Health, London, UK).

He edits the evidence-based practice sections of the Archives of Diseases in Childhood and is an associate editor of the journal. He has lectured in the UK, Europe, North America, Australia, and the Nordic Countries on the subject of evidence-based practice and has written widely on this.
