Virtual Interactive Workshops

Gloucestershire Health and Care NHS Foundation Trust

26th May 2021: Start 09:30 – 12:30 (room opens 09:20)

In response to the current challenges of face-to-face teaching, we have developed a series of engaging and interactive Zoom workshops for supervisors.

Outline

The workshop will focus on key themes and challenges as identified through a pre-course questionnaire along with key priorities within the Trust

It's an ideal opportunity to reflect on your role as an appraiser.

We will look at the process of providing a meaningful appraisal following Covid-19 and how to optimise the process to support the wellbeing of our colleagues as we adjust in 2021

Facilitator – Dr Mark Slade

Mark has held leadership roles within the NHS, as a clinical director, specialty director and medical director. He is a committed educator and trainer and enjoys excellent feedback as a coach, mentor, educational supervisor and appraiser.

He sat on an advisory panel on the development of the GMC educational standards, and acts as an appraiser of medical directors for NHS England. He completed the international health and social care leadership programme of the University of Yale school of public health and regularly teaches on leadership and its components. He continues to practise clinically, working part-time in acute medicine.
